PACHHUNGA UNIVERSITY COLLEGE

A report on students' departmental activity
Class Presentations – Biotech/V/CC/09 Molecular Biology
 3-4October 2023

Students' presentation was held during 3-4October 2023 for the 5th semester students under the supervision of Dr. Liansangmawii Chhakchhuak, course incharge. The students were grouped into 10 teams as follows:

SI.No	ROLL.NO	PRESENTER	TOPIC
1.	2101BS002	Abigail Lalnunpuii	DNA replication in prokaryotes
2.	2101BS070	F. Malsawmsanga	
3.	2101BS037	C Lalrinchhani	Transcription in eukaryotes
4.	2101BS003	Alvin Lalruatfela	
5.	2101BS171	Lalmalsawmi Khawhkring	Translation in prokaryotes
6.	2101BS227	Lalsangliana Pachuau	
7.	2101BS189	Lalramnghaki	Avery, MacLeod, McCarty experiment
8.	2101BS041	C. Lalthanliana	
9.	2101BS229	Lalthanpuii	Operon concept
10.	2101BS376	Vikas Chhetri	
11.	2101BS350	Vanlalthimpuii	Hershey-Chase experiment
12.	2101BS283	R. Lalhriatrenga	
13.	2101BS367	Vanlalruati	Transcription in prokaryotes
14.	2101BS251	Malsawmdawngliana	
15.	2101BS396	Zoremsangi Khawhkring	RNA splicing
16.	2101BS100	Jayson Lalrindika	
17.	2101BS399	Zoruatpuii	DNA replication in eukaryotes
18.	2101BS061	Eden Laldusaka	
19.	2101BS188	Lalrammuanpuia	Griffith's transformation experiment
20.	2101BS217	Lalruatfela	

All the teams performed very well and gave interesting presentations. The presentation slides were impressive and the skill with which they were presented were mostly good. Feedback was given to them in their content, references, presentation skills etc. and were also evaluated accordingly.

The activity gave an excellent platform for the students to practice English communication, interaction with audience and learn how to teach and present their topics. Overall, the activity helped in the personality development of students.
