

DEPARTMENT OF BIOTECHNOLOGY

PACHHUNGA UNIVERSITY COLLEGE

&

DEPARTMENT OF BIOCHEMISTRY

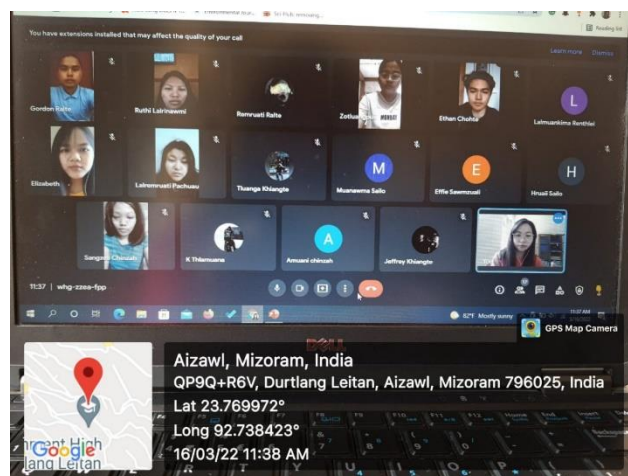

GOVERNMENT ZIRTIRI RESIDENTIAL SCIENCE COLLEGE

Report on Faculty exchange program on 16th March, 2022

A faculty exchange program between, Department of Biotechnology, Pachhunga University College and Department of Biochemistry, Government Zirtiri Residential Science college was held on 16th March, 2022.

The participating students were 4th semester students from Department of Biotechnology, Pachhunga University College and the invited lecture was given by Dr. Rebecca Vanlalsangi, Assistant Professor, Department of Biochemistry, Government Zirtiri Residential Science college. The topic of the lecture was “Bacterial genome”. The class was conducted via online mode, google meet was used as the platform. Link was shared in the class whatsapp group 5 minutes prior to commencement of the lecture, the lecture commenced at 11:30 am.

A total of 21 students attended the class. The class was smoothly conducted without any internet problem for 40 minutes, which was followed by interaction session of around 10 minutes. Students were introduced to the unique and distinctive genomes of the largest group of prokaryotes i.e bacteria. Majority of them actively participated raising other related questions and clearing their doubts. The session ended with a thank you note from the teacher. Study material and notes on the given topic were shared in their respective whatsapp group after the class.
