## Why National Science Day?

- On 28<sup>th</sup> February, 1928, the great Indian physicist invented the **Raman Effect**
- Won the Nobel Prize in 1930.**
- When the light traverses through a transparent object some of it gets dispersed and the dispersed light changes its wavelength and amplitude, though slightly*

CV Raman

Raman retired from IISC in 1948 and established the Raman Research Institute in Bangalore  
Died in 1970.
