

OBSERVATION OF WORLD WATER DAY 2023

22.03.2023

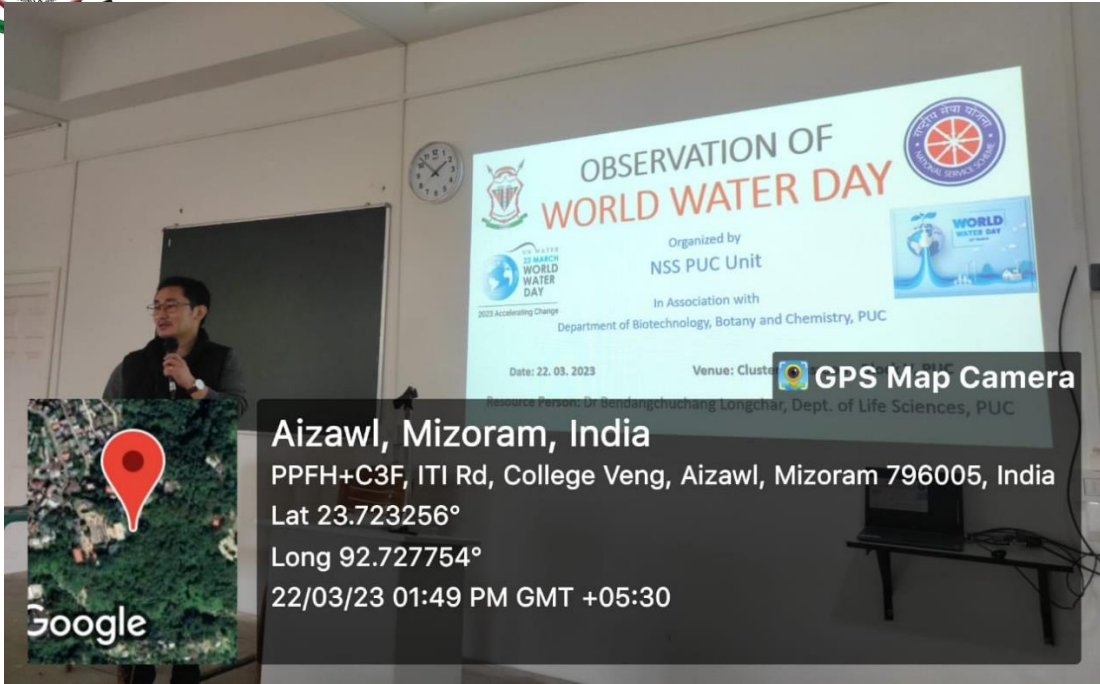

Every year since 1993, World Water Day (22 March) raises awareness and inspires action to tackle the water and sanitation crisis. NSS PUC Unit, in association with the Department of Biotechnology, Department of Botany and Department of Chemistry, PUC observed **World Water Day** Programme on 22nd March 2023 at PUC Cluster Classroom.

The programme was chaired by Dr K. Vanlaldinpuia, an assistant Professor in the department of Chemistry, who is also a Programme Officer, NSS PUC Unit. Dr Bendangchuchang Longchar, an Assistant Professor in the Department of Life Sciences, PUC delivered a speech on the 2023 World Water Day theme "**Accelerating Change**". The programme was attended by eighty-six (86) students (46 girls and 40 boys) and the speech was followed by a fruitful interaction session.
