

Department of Biotechnology Pachhunga University College

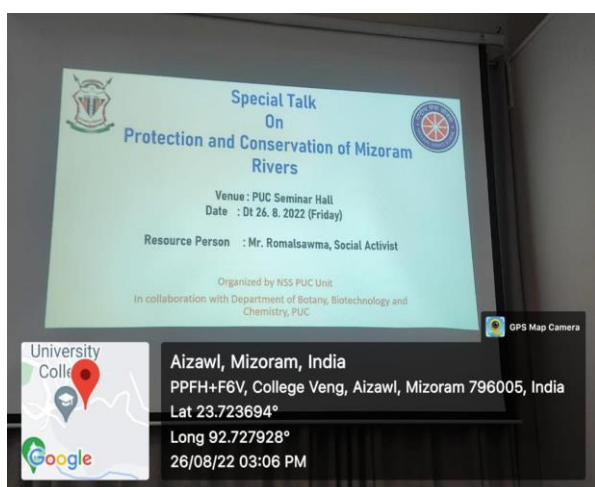

SPECIAL TALK (Sensitization and Awareness)

on

“Protection and Conservation of Mizoram Rivers”

26.08.2022

A special talk on “Protection and Conservation of Mizoram Rivers: Sensitization and Awareness” was organized by NSS PUC Unit in collaboration with Department of Botany, **Biotechnology** and Chemistry, PUC. The resource person was Mr. Romalsawma. The programme was chaired by Dr H. Lalruatsanga, Head, Department of Botany. Dr K. Vanlaldinpuia, PO, NSS PUC Unit introduced the speaker and the vote of thanks was proposed by Dr Daniel Lalawmpuia, PO, NSS PUC Unit. The resource person, Mr. Romalsawma, is a social activist who has done extensive work in spreading awareness about the deteriorating condition of rivers in different parts of Mizoram. His talk focused on the need for the youths of the state to take action as soon as possible in order to save the environment. He spoke from his experience and reminded the volunteers about the need to reduce plastic wastes. He emphasized on the imbalance in the ecosystem being built up by the carelessness of humans, and said that it is time for the youth to wake up and step up. He ended his talk with the message that we will have a bleak future if we do not act now. 118 volunteers and 4 faculty attended this program.
