

DEPARTMENT VISIT BY SCHOOL

The department of Chemistry, PUC has conducted School Visit program sponsored by SERB, EEQ project on 9th December, 2022 @12:30 – 3:30pm. As many as 75 numbers of Class XII science students from Government Central Higher Secondary School, College Veng, Aizawl were received in the department of Chemistry PUC. The program was composed with Power point presentation from the project PI Dr. C. Lalhriatpuia with the titled “Application of UV-Vis-spectroscopy in quantitative analysis”. The second session was a practical class in the quantitative analysis of the given unknown solution using the simple titration method as well as using UV-Vis spectrophotometer procured from the sanctioned project. Positive feedback was received from the students and their teachers which will help them in their future studies and they are very thankful to the DST-SERB for giving an opportunity to experience such a special type of program which seldom occurs during their entire course.
