The Viksit Bharat Young Leaders Dialogue seeks to break the 25-year-old tradition of hosting the National Youth Festival in its conventional format. This initiative aligns with Prime Minister Narendra Modi's Independence Day address last year, where he called for engaging 1 lakh youth in politics without political affiliations and providing them with a national platform to contribute ideas for a developed India (Viksit Bharat). The Prime Minister attended the event and shared lunch with the young leaders, personally interacting with them. This interaction provided an opportunity for participants to share their ideas, experiences, and aspirations directly with him. Such engagement is designed to bridge the gap between governance and youth aspirations, fostering a deeper sense of ownership and responsibility among the participants. Mizoram sent four teams comprising 12 participants to the event, six of whom were from our college
