

DEPARTMENT OF ENGLISH: PACHHUNGA UNIVERSITY COLLEGE

Parents-Teachers Meetings

Whatsapp groups comprising the faculty and the parents/ guardians of the students of each semester is created, wherein parents are informed of important information regarding students' attendance, examinations and performance. Aside from this, Parents-Teachers Meetings are frequently held in which the faculty orient the parents with the working of the college and the department, as well as their children's individual performances.

Parents, in turn, use the opportunity to enquire about their children, and to offer suggestions and constructive criticism to the department. This is an important initiative in which the faculty and the parents work together for the betterment of the students. Feedback forms are given to the parents, and the department makes necessary modifications based on their responses.
