

## Visit to Cancer Research Institute

The physics department organized a one-day visit to the Cancer Research Institute, Zemabawk on 1<sup>st</sup> June 2015 for the final year students of the department. The visit was undertaken under the careful supervision of Dr. Lalmuanpuia Vanchhawng and Ms. Laldinpuii. Principal was kind enough to provide the college bus to ferry the students to and fro. The staff at the Cancer Research Institute gave students brief explanation on the workings of various scientific instruments such as Theratron 780C and Brachy therapy micro selectron HDR Genie used in radiation therapy for the treatment of Cancer.

Cancer Institute Visit 2015

**Pic: Demonstration of working of various instruments, Cancer Research Institute Zemabawk. Lat: 23. 7307°N, Long: 92. 7173°E, Time: 1pm**

The students were highly motivated to see the instruments and realise how Physics and Physical laws are being used in treatment of patients suffering from one of the deadliest diseases that mankind has suffered from.
