

Special Talk on “Personality development, Career guidance and motivation” organized by Department of Biotechnology, Pachhunga University College (PUC)

Date: 7th February 2020 (Friday)

Time: 1:45pm – 4:30pm (CCA class)

Venue: Department of Biotechnology Classroom

The program was started with a short speech from the coordinator Dr. Zothanpuia, Assistant professor, Department of Biotechnology, PUC. He introduced and highlighted the purpose and importance of the program and welcomed the participants. The resource person of the program was Dr. Laldinsangi, Assistant professor, Department of Life science, PUC who was also a topper in Mizoram Civil Service (MCS) exam 2019. She shared several important points on Personality development, value system and interview skills. She highlighted her experience on how she prepared for the combined competitive exams and her success stories. She suggested good books and coaching centres in and outside Mizoram for the preparation of competitive exams. A Q & A session was opened for all the participants where the queries were collected from every participant in a piece of paper. The resource person addressed all the queries raised and all the participants had a good interactive session. The program was conducted at Department of Biotechnology classroom, 33 participants attended the program and had a fruitful session
