

**PACHHUNGA UNIVERSITY COLLEGE  
DEPARTMENT OF ZOOLOGY  
INVITED LECTURE ON PHILOSOPHY OF SCIENCE  
2019**

Place: Department of Zoology, Pachhunga University College

Time: 18<sup>th</sup> September 2019, 11:30 AM.

Resource Person: Dr Lalruatfela

The study of science as a subject seems a simple act of reading, understanding, and remembering what has been read, but without a firm grasp on the philosophy behind the studying of science, it is almost impossible for anyone to be a good scientist. With this in mind, Dr Lalruatfela, Guest Faculty, Department of Philosophy, Pachhunga University College, was invited to talk on the very broad topic “Philosophy of science”. The lecture focused on the importance of logical thinking, dealing with empirical data, ethics and other relevant topics related to the studying of science. A total of 30 students belonging to 5<sup>th</sup> Semester BSc (Zoology) attended the lecture. The lecture was followed by lively discussion on various queries from the students.
